ANALYSIS:

High Space Efficiency: The lack of dedicated hallways maximizes the usable square footage of individual rooms.

Strong Visual Connections: The open-concept living, dining, and kitchen layout creates a excellent sightlines.

Symmetrical Zoning: Grouping the bedrooms and bathrooms identically on opposite sides provides a balanced, dual-suite framework.

Dual Access Kitchen: The open kitchen ends allow for smooth, circular traffic flow around the cooking zone and island.

02 GREEK BAY - RESORT

CHENNAI ECR, INDIA

LOCATION : PONDICHERRY , INDIA

AREA : 21,409 SQ.FT (116 SQ.FT)

''Your Private Mediterranean Sanctuary"

''Inspired by greece,defined by luxury"

RENOVATION&FIT OUT PROJECT: This project focuses on renovating and revitalizing an existing guest house, giving new life to the property through a distinctive Greek-inspired design. Drawing inspiration from the iconic architecture of the Greek islands, the design features whitewashed walls, vibrant blue accents, arched openings, textured finishes, natural stone elements, and wooden pergolas that evoke a serene Mediterranean atmosphere.

The development integrates new additions with the existing structure and includes two villa types, a welcoming reception, functional kitchen spaces, and beach-view areas. Open layouts, abundant natural light, coastal-inspired décor, and carefully curated outdoor spaces create a relaxing resort-like experience that reflects the charm and elegance of traditional Greekhospitality.

Scope:

1. Renovating the existing space and finalising the concept
2. Providing all 2d&3d layouts.
3. Site assessment & condition survey
4. Interior fit outs and MEP upgrades
5. Construction documentation and cordination

My Role:

1. Site analysis and conceptual devolopment
2. Cordinate with interior designers,MEP consultants and contractors
3. Drawing documentation and cordination before submission
4. Attend and organize site meetings
5. Assisting with BOQ and material procurement.

04 PRIVATE GUEST HOUSE

PONDICHERRY, INDIA

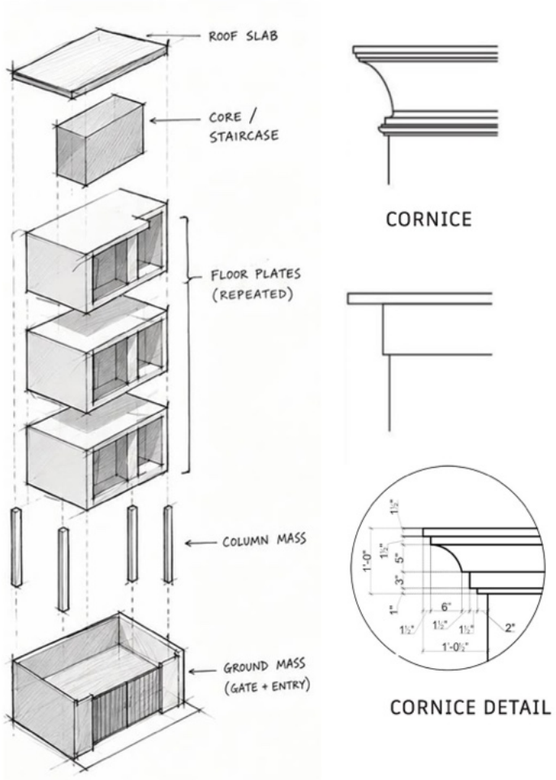
SCHEMATIC EXPLODED VIEW:



FRENCH COLONIAL ARCHITECTURE:

The establishments were seen in Pondicherry, Karaikal, Yanaon on the Coromandel Coast, Mahe on the Malabar Coast and Chandernagor in West Bengal.

Though between the years 1693 to 1697 the Dutch took over, they handed the area back to the French East India Company.

The French architecture made use of local raw materials and took into account the climatic conditions of the place.

Some of the examples of french colonial architecture style represented in different countries, indicating the similar elements and colour shades followed in the elevation.
